

# Seeking participants with aphasia for research about using the Internet

## Project aims

To **create software** to help people with aphasia to:

- Access **healthcare** online
- Access **information** online
- Access **support** online

## How can you help?

We want to hear **your experiences and thoughts** of **using the Internet** so we can make the software **useful**.

## What will I need to do?

- **Participate** in a **focus group** (online or in-person at UQ Herston).
- **Discuss** your **experiences** of **using the Internet** or **supporting a person** with aphasia to use the Internet.
- You will be **paid** for your **time**.

## Who can participate?

- People living with **aphasia** caused by **stroke**;
- **Family, friends, or carers** of people with aphasia;
- **Health professionals** working with people with aphasia.
